Papyrus Viscom... uw partner in Visuele Communicatie!

Sinds de overname van **XL Graphics**(BE) in oktober 2011 en mede dankzij de kennis die op het vlak van hardware en software die daarmee in huis werd gehaald heeft Papyrus zijn positie in de groot formaat print & sign markt verder kunnen verstevigen. Na een succesvolle integratie van XL Graphics met de bestaande LFP, Sign en Screen afdeling van Papyrus België was de volgende stap een logisch gevolg. De krachten van Papyrus en XL Graphics werden verder gebundeld in één krachtig concept met de nieuwe naam: Papyrus Viscom.

Door het samenvoegen van beide bedrijven, elk met hun specifieke kennis en ervaring, is Papyrus Viscom een ware specialist geworden op het gebied van totaaloplossingen voor de grootformaat Print & Sign-industrie.

Papyrus Viscom biedt een breed en gevarieerd assortiment van onder meer:

Grootformaat printers - Snijplotters en snijtafels - Software - Afwerkingsapparatuur - Printmedia - Snijfolies en toebehoren - Trainingen - Eigen dienst-na-verkoop

Bij Papyrus Viscom krijgen de klanten één enkele, handige bron voor een breed scala aan producten.

Met de Mutoh, Canon en Epson printers aangevuld met de Summa snijplotters en snijtafels, heeft Papyrus Viscom een oplossing in huis voor elke Print en/of Cut toepassing. Wij bieden een uitgebreid media-aanbod met sterkhouders als Avery, Dickson, RTape, Yupo, Kodak, Chromaluxe en het huismerk Opti. Tevens is er een ruim aanbod aan randapparatuur met o.a. de Roll-X

applicatietafels, Neolt snijtafels en Kala laminatoren in combinatie met een doorgedreven kennis van professionele RIP's zoals SAI, Onyx, Caldera. Dit maakt Papyrus Viscom een echte totaalleverancier voor de print- en signmarkt.

In deze prijslijst kan u kennis maken met onze producten. De handige inhoudstafel geeft u een overzicht van ons assortiment. Naast de informatie die u in deze prijslijst kan terugvinden kan u uiteraard ook steeds bij ons team terecht voor bijkomende uitleg.

Zij zullen u graag bijstaan met advies over onze producten en hun toepassingen.

We hopen dat deze prijslijst, naast onze website en in combinatie met ons persoonlijk advies een stap in de goede richting is om u te informeren.

We danken u alvast voor het vertrouwen en wensen u bijzonder succesvolle zaken toe.

Met vriendelijke groeten,

Het Papyrus Viscom Team

**Inkjet Sublimation Transfert Paper**

Dye sublimation paper produces exceptional quality colour for printing onto both hard and soft surfaces. It delivers high definition images with smoother solids, graduations and more life-like skin tones and crisp results especially on images with smaller text. These papers are specially designed to hold the ink on the surface without the paper becoming too wet and then "cockling" due to over saturation.

Automotive Scorpion Window film

Scorpion getinte raamfolies zijn de volgende evolutie van hightech UV-bescherming voor voertuigen. Scorpion films buigen het zonlicht af, maar blokkeren ook 99% van de schadelijke UV-stralen van de zon en bieden een uitstekende bescherming voor uw huid. Met Scorpion-autoruitintfilms krijgt u levenslange bescherming tegen verblinding en schade aan het interieur van het voertuig.

NON WOSENS						
	OMSCHRIJVING					
	Tork Heavy-Duty Cleaning Cloth Combi Roll in Box. De multifunctionele Tork Heavy-Duty Reinigingsdoek is zeer absorberend, dik en gaat zeer lang mee, en doorstaat hard schrobben zonder uit elkaar te vallen. Hij kan worden gebruikt met de meeste oplosmiddelen, en verwijdert olie, vet, water en hardnekkige plekken snel en effectief, terwijl hij de handen beschermt tegen hitte en metaalsplinters. Deze doek kan worden gebruikt in de vloer- en wanddispensers die ontwikkeld zijn voor veiligheid en efficiëntie. Ook is hij geschikt voor de Tork Maxi Centerfeed of Boxed Combirol Dispenser, ontworpen voor soepel gebruik met één hand. W1/W2

Kiss-Cut Tool

With mechanically-controlled knife pressure, this tool is specifically designed for kiss-cutting material down to its liner up to 1.2 mm thick. This tool also includes an adjustable nose piece for precise depth control.

Ideal for cutting

1. Paper < 200 gr
2. Adhesive vinyl / Sandblast material
3. Window film
4. Magnetic material
5. Adhesive PVC banner vinyl

Blades

390-534 - Tangential Knife 36°

Single Edge Cutout Tool

The Single Edge Cutout Tool is designed for detailed cutting through material up to 6 mm thick. A spring-loaded gliding disk allows cutting of very precise details and can be fixed at a set depth.

Ideal for cutting

1. Paper < 200 gr
2. Cardboard 300-500 gr
3. Adhesive vinyl

4. Hard foamboard <= 2 mm
5. Polypropylene <= 1.2 mm
6. Polycarbonate <= 0.6 mm

7. Adhesive PVC banner vinyl
8. Magnetic material

Double Edge Cutout Tool

The Double Edge Cutout Tool ensures minimal wear when cutting through rigid material up to 5 mm thick.

Ideal for cutting

1. Paper < 200 gr
2. Cardboard 300-500 gr
3. Adhesive vinyl

4. Adhesive PVC banner vinyl
5. Reflective sheeting
6. Hard foamboard <= 1.2 mm
7. Polypropylene <= 1.2 mm
8. Polycarbonate <= 0.6 mm
9. Magnetic material

Creasing Tools

Several creasing wheels, designed in different depths and radius sizes, are available for creasing and scoring paper, cartons, polypropylene and PVC material.

Strongest features

- Clean creases without tearing
- Directional pressure adjustments

ideal for creasing:

- Corrugated B-C-A-EE-BC flute (3 - 6 mm)
- Corrugated C Flute (4 mm)
- Corrugated E Flute (1.5 mm)
- Paper < 200 gr
- Cardboard 300 - 500 gr m2

SUMMA Flatbed Cutting System

SUMMA F Series - Consumables and Accessories for Routing Module

Multipurpose Coated Bits

Ideal to route in aluminium composites, wood and PVC

Up to 4 mm thick aluminium composites can be processed in a single pass, at speeds of up to 150 mm/s

- The coating = thin film coating
- Less friction = less heat
- Longer lifetime / Less wear
- Greater processing speeds and cutting depths.
- Number of passes can be reduced
